BUSINESS SALE OPPORTUNITY

We are instructed to act on behalf of a company in a specialist ground stabilisation sector of the Construction Industry, in the disposal of their business.

The opportunity has arisen due to the Directors looking at a disposal as part of their exit planning strategy. The offering consists of an established business capable of significant income generation, established history, comprehensive accounts and profit information. The main features of the opportunity comprise:

- Over 30 years of trading.
- Excellent reputation.
- An established customer base.
- Skilled staff.
- Unique plant and equipment, owned outright.
- Growth potential.

We believe this represents an extremely attractive proposition which would appeal to both new investors into the market and established companies within the Civil Engineering, construction and ground works industry looking for an addition to their business.

Please forward any enquires for further information to andyj@360accountants.co.uk
